📍 Ho Chi Minh City, Vietnam

Professional Summary

A final-year Information Technology student with a background in **Java Core** and **the Spring Framework ecosystem (Spring Boot, Spring Security, JPA)** is seeking a Java Backend Intern position to apply knowledge of RESTful API system design to real-world projects and learn professional teamwork processes.

Education

- **University of Transport and Communications – HCMC Campus** HCM, Vietnam
• *B.Sc. in Information Technology* Feb. 2022 – Present

Technical Skills

- **Programming Languages:** Java (Proficient), SQL, C#, C/C++, JavaScripts.
- **Frameworks & Libraries:** Spring Boot, Spring Data JPA, Hibernate, Spring Security, REST APIs, ReactJs.
- **Databases:** Microsoft SQL Server, MySQL, PostgreSQL, Redis, Flyway for migration.
- **Testing:** Unit Testing, Mockito, JUnit 5.
- **Concepts:** Layered Architecture, Repository Pattern, DTO Pattern, RESTful API design, OOP, ORM.
- **Tools:** Git/Github, VS Code, Postman, Docker, Dbeaver.
- **English:** Able to read and understand English technical documentation.

Academic Projects

- **E-Commerce Platform (Team Project - 2 members)** (Oct 2025 - Jan 2026)
 - 🌐 GitHub Repository | 📄 Deployed Product
 - Developed **full-stack** web application using **Spring Boot**, **Spring Data JPA**, and **MySQL**.
 - Designed **RESTful APIs** for **almost entities** with **Controller-Service-Repository architecture** and **DTO Pattern**.
 - Designed database schema and managed migrations using Flyway.
 - Integrated **Goong Maps API** and **Cloudinary API** to handle **location tracking** and **media storage**.
 - Implemented **Spring Boot Scheduler** to perform periodic data analysis on restaurant ratings.
 - Implemented **VNPay online payment** integration.
 - Secured the system using **Spring Security**, **JWT** and **role-based access control (RBAC)**.
 - **Deployed** production on **Render** and **Railway**.
 - **Tech Stack:** Java, Spring Boot 3, Spring Data JPA, Spring Security, JWT, MySQL, Swagger, Redis, Git, ReactJs.
- **Recruitment Website (Team Project - 6 members)** (May 2025 - Jun 2025)
 - 🌐 GitHub Repository
 - Built a recruitment system using **Spring Boot** and **SQL Server** to manage relationships between candidates and employers.
 - Designed and implemented **APIs** for **core modules** including **Account management** and **Employee Entity**.
 - Integrated **Cloudinary API** for **media cloud storage**.
 - Designed database for **core business entities**.
 - **Tech Stack:** Java, Spring Boot, Spring Data JPA, MapStruct, Lombok, Thymeleaf, SQL Server.
- **Todo List Mobile App (Personal Project)** (May 2025 - Jul 2025)
 - 🌐 GitHub Repository
 - Built **CRUD** for task scheduling mobile application using **Spring Boot**, **Hibernate** and **Flutter**.
 - Secured user access using **JWT-based** and **Google authentication**.
 - Implemented pagination for task lists and **Email Sender** for notifications.
 - Designed and managed data persistence using **MySQL**, migration with **Flyway**.
 - **Tech Stack:** Java, Spring Boot, Spring Data JPA, Spring Security, JWT, MySQL, Git, Redis, Flutter.
